WORK EXPERIENCE

Software Developer CATTs

09/2022 - Present Poland

Support customs and trade compliance operations globally. Trade Management services allow you to manage, consolidate and audit your broker network.

Achievements/Tasks

- Developed scalable microservices using Go/Python/JavaScript, deployed on AWS/Dokku.
- Utilized AWS services including **RDS**, **Cloud Run**, and **IAM** to manage secure and efficient cloud infrastructure.
- Playing a key role in architectural and design decisions, building toward an efficient micro services distributed architecture.
- Implemented CI/CD pipelines with Github Actions for cloud deployments.

Contact : Kjell Izaksson - kjell@catts.eu

Software Quality Engineer Samsung Electronics Polska Sp. zo.o.

12/2021 - 10/2021 Warsaw

Achievements/Tasks

- Designed, tested, and deployed solutions using **AWS (EC2, S3, Lambda, VPC)** for robust cloud-based environments.
- Managed and implemented data pipelines and serverless functions on **Lambda** and **EC2**.
- Leveraged **GCP** for ML workloads and supported CI/CD with Jenkins for seamless cloud deployments.
- JavaScript and Python used for day to day work including ML for language processing

Contact : Tomasz Ziętkiewicz - t.zietkiewicz@samsung.com
